STANDARD BOOM EQUIPMENT

BOOM
30-94’ (9.23-28.49 m), four section full power, mechanically synchronized boom. High-strength four plate construction with embossed side plate holes to reduce weight and increase strength. Anti-friction slide pads. A single boom hoist cylinder provides for boom elevation of -4˚ to 77˚. Maximum tip height is 99’ (30.17 m)

MAIN BOOM
33-81’ (10.15 - 24.83 m), three section full power, mechanically synchronized boom. High-strength four plate construction with embossed side plate holes to reduce weight and increase strength. Anti-friction slide pads. A single boom hoist cylinder provides for boom elevation of -4 to 77 degrees. Maximum tip height is 87’ (26.53 m).

33.75-105’ (10.29-32.0 m) four section full power mechanically synchronized boom. Extra high-strength four plate construction with embossed side plate holes. Anti-friction slide pads. A single boom hoist cylinder provides boom elevation of -4 to 88 degrees. Maximum tip height is 110’ (33.5 m).

JIBS
32’ (9.75 m) side stow swing-on one-piece lattice type jib. Single sheave mounted on anti-friction bearing. Jib is offsettable at 0’, 15’ or 30’. Maximum tip height is 129’ (39.32 m) with 94’ (28.49 m) boom, 140’ with 105’ (32.0 m) boom. 32-49’ (9.68 – 14.86 m) side-stow swing-on lattice type jib. Single sheave mounted on anti-friction bearing. Jib is extendible to 49’ (14.86 m) by means of a 17’ (5.18 m) manual pull-out tip section, roller supported for ease of extension. Jib is offsettable at 0’, 15’ or 30’. Maximum tip height is 147’ (44.81 m) with 94’ (28.49 m) boom, 158’ with 105’ (32.0 m) boom.

BOOM HEAD
Welded to outer section of boom. Four or five non metallic load sheaves and two metallic idler sheaves mounted on heavy duty, anti-friction bearings. Quick reeving boom head. Provisions made for side-stow jib mounting.

OPTIONAL BOOM EQUIPMENT

MAIN BOOM
33-81’ (10.15 - 24.83 m), three section full power, mechanically synchronized boom. High-strength four plate construction with embossed side plate holes to reduce weight and increase strength. Anti-friction slide pads. A single boom hoist cylinder provides for boom elevation of -4 to 77 degrees. Maximum tip height is 87’ (26.53 m).

33.75-105’ (10.29-32.0 m) four section full power mechanically synchronized boom. Extra high-strength four plate construction with embossed side plate holes. Anti-friction slide pads. A single boom hoist cylinder provides boom elevation of -4 to 88 degrees. Maximum tip height is 110’ (33.5 m).

AUXILIARY BOOM HEAD
Removable auxiliary boom head has single sheave mounted on anti-friction bearing. Removable pin-type rope guard for quick reeving. Installs on main boom peak only. Removal is not required for jib use.

HOOK BLOCK
Three or four metallic sheaves on anti-friction bearings with hook and heavy duty hook latch. Quick reeving design does not require removal of wedge and socket from rope.

HOOK AND BALL
7 ton (6.3 mt) top swivel ball with hook and hook latch.
TEREX

T340-1/T340-1 XL

STANDARD UPPERSTRUCTURE EQUIPMENT

UPPERSTRUCTURE FRAME
All welded one-piece structure fabricated with high tensile strength alloy steel. Counterweight is bolted to frame.

TURNTABLE CONNECTION
Swing bearing is a single row, ball type, with external tooth. The swing bearing is bolted to the revolving upperstructure and to the carrier frame.

SWING
A hydraulic motor drives a double planetary reduction gear for precise and smooth swing function. Swing speed (no load) is 2.8 rpm.

SWING BRAKE
Heavy duty multiple disc swing brake is mechanically actuated from operator’s cab by foot pedal. Brake may be locked on or used as a momentary brake.

RATED CAPACITY INDICATOR
Rated Capacity Indicator with visual and audible warning system and automatic function disconnect. Second generation pictographic display includes: boom radius, boom angle, boom length, allowable load, actual load, and percentage of allowable load registered by bar graph. Operator settable alarms provided for swing angle, boom length, boom angle, tip height and work area exclusion zone. Anti-two block system includes audio/visual warning and automatic function disconnects.

OPERATOR’S CAB
Environmental cab with all steel construction, optimum visibility, tinted safety glass throughout, and rubber floor matting is mounted on vibration absorbing pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cab has a sliding door on the left side; framed sliding window on the right side, hinged tinted all glass skylight and removable front windshield pads. The cabinet is equipped with a mechanical suspension and includes head and arm rests.

STANDARD CARRIER EQUIPMENT

CARRIER CHASSIS
Chassis is Terex designed and built with a 6 x 4 drive. Triple box construction frame is fabricated from high strength alloy steel and provides superior frame rigidity. Full aluminum decking improves access and reduces weight. Aluminum engine housing with sliding cover optimizes engine access while reducing weight and improving corrosion resistance.

AXLES AND SUSPENSION
Rear Axle – 45,000 lb (20,412 kg) capacity tandem axles with heat treated housings have interaxle differential with lockout. Axles are mounted on standard air suspension, over equalizer beams with shock absorbers to distribute weight evenly. Front Axle – 22,000 lb (9,979 kg) I beam type axle with air suspension and shock absorbers for exceptional ride.

TIRES
Front: Two 425/65R22.5-20 P.R. All-Position type tubeless. Rear: Eight 11R22.5-16 P .R. transport type.

BRAKES
Full air brakes on all wheels with ABS split circuit system. Front brakes: 16.5 x 6” (419 x 152 mm) Rear brakes: 16.5 x 7” (419 x 178 mm). All brakes are air operated “S” cam type with automatic slack adjusters. Lining areas are 384 in² (2477 cm²) front and 920 in² (5935 cm²) rear. Air compressor has standard air dryer. Rear tandem axles have spring-set, air released parking or emergency brake chambers. Parking brake is applied with valve mounted on dash panel. Emergency brakes apply automatically when air pressure drops below 60 psi (4.2 kg/cm²).

STEERING
Mechanism includes rack and pinion with integral hydraulic power. Turning radius: To ½ of tires: 34’ (10.35 m) To corner of carrier: 37’ 7” (11.46 m)

TRANSMISSION
Standard: Fuller RT 8908LL transmission has 10 speeds forward with lock-up in top five gears. Adaptive feed back controls continually optimize shifts for weight, terrain, etc.

MULTI-POSITION OUT & DOWN OUTRIGGERS
Fully independent hydraulic outriggers may be utilized fully extended to 20’ (6.10 m) in their 1/2 extended position, or fully retracted. Removable aluminum outrigger pads are 452 in³ (2919 cm³) and stow on the carrier frame. Complete controls and sight leveling bubble are located in the operator’s cab. Includes 5th, front, outriggers.

CONTROLS
Armrest mounted dual axis controls for winch(s), swing and boom elevation. Winch rotation indication incorporated into control handles. Armrest swings up to improve access and egress. Vernier adjustable hand throttle included. Switches include ignition, engine stop, lights, horn, windshield wipers, defroster, outriggers, 360˚ house lock, etc. Horn and winch speed shift switches are mounted in the levers. Foot control pedals include swing brake, boom telescope, and throttle.

INSTRUMENTS AND ACCESSORIES
In-cab gauges include bubble level, engine oil pressure, fuel, engine temperature, voltmeter. Indicators include high coolant temperature/low engine oil pressure audio visual warning, low coolant level audio visual warning, and Rated Capacity Indicator. Accessory indicators include fire extinguisher, windshield washer/wiper, skylight wiper, left & right hand rear view mirrors, dash and dome lights, and seat belt. Circuit breakers protect electrical circuits.

HYDRAULIC CONTROL VALVES
Valves are mounted on the rear of the upperstructure and are easily accessible. Valves utilize electric over hydraulic operators and include one pressure compensated load sensing two spool valve for boom elevation and telescope, one pressure compensated load sensing two spool valve for main and auxiliary winch, and one single spool valve for swing. System provides for simultaneous operation of all crane functions. High pressure regeneration feature provides two-speed boom extension. Quick disconnects are provided for ease of installation of pressure check gauges.

OPTIONAL EQUIPMENT
Auxiliary Winch • LP Heater/Defroster • Hydraulically Powered Air Conditioner • Diesel Heater/Defroster • Tachometer • Work Lights • Heavy Counterweight Package(s)
TEREX

T340-1/T340-1 XL

STANDARD CARRIER EQUIPMENT (CONTINUED)

CARRIER CAB

One-man aluminum cab is mounted on vibration absorbing pads and has optimum visibility, safety glass, acoustical foam padding inside cab of isolating against sound and weather, hot air defroster, six-way adjustable air suspension seat with seat belt and arm rests, and a lockable door with roll down window.

CONTROLS

Included are transmission shift, inter-axle differential lock, cruise control, parking brake, two-speed windshield wiper/washer, heater and defroster, lights, headlight dimmer, dome light, and ignition switch.

INSTRUMENTS

Included are speedometer, hourmeter, tachometer, voltmeter, fuel gauge, engine oil pressure gauge, water temperature gauge, dual air pressure gages. Warning lights include low coolant level, parking brakes on, low air, pumps engaged, and high beam lights.

HYDRAULIC SYSTEM

HYDRAULIC PUMPS

Triple pump driven from engine flywheel housing PTO with air shifted mechanical pump disconnect at 1.15 times engine speed, w/manual or double and single pumps driven by hot-shift PTO’s w/automatic. A separate steering pump is driven directly from the engine. Combined system capacity is 127.4 gpm (482.3 lpm). Hydraulic oil cooler is standard.

Main Winch Pump

- 60.3 gpm (228.3 lpm) @ 3,500 psi (246.1 kg/cm²)
- Boom Hoist and Telescope Pump
- 45.1 gpm (170.7 lpm) @ 3,500 psi (246.1 kg/cm²)
- Outrigger and swing pump
- 22 gpm (83.3 lpm) @ 2,500 psi (175 kg/cm²)
- Power steering Pump
- 8 gpm (30.3 lpm) @ 2,000 psi (138 kg/cm²)

MAIN WINCH SPECIFICATIONS

Hydraulic winch with bent axis piston motor and planetary reduction gearing provides two-speed operation with equal speeds for power up and down. Winch is equipped with an integral automatic brake, grooved drum, tapered flanges, standard cable roller on drum, and electronic rotation indicator.

Drum Dimensions and Capacity

- Same as main winch

ACCESSORIES

Included are fire extinguisher, right hand and left hand rear view mirrors, electric horn, access steps and grab handles(located at four separate points around the crane), back-up alarm, two position boom rack, front and rear towing loops.

LIGHTS

Light package includes headlights with foot operated dimmer switch, clearance lights, tail lights, directional signal lights, four way hazard flasher lights, back-up lights with audible alarm.

OPTIONAL EQUIPMENT

- Spare tire with wheel • Immersion heater(s) • Pintle hook • Cold weather kit • Allison 3500 RDS six-speed automatic transmission • Rear air suspension • Engine exhaust brake • Air conditioner • Aluminum R/L hand tool boxes • Ground level outrigger controls.

FILTRATION

Full flow oil filtration system with bypass protection includes a removable 60 mesh (250 micron) suction screen-type filter and five micron replaceable return line filter.

HYDRAULIC RESERVOIR

All welded construction with internal baffles and diffuser. Provides easy access to filters and is equipped with an external sight level gauge. The hydraulic tank is pressurized to aid in keeping out contaminants and in reducing potential pump cavitation. Capacity is 91 gal (344 L).

OPTIONAL HOIST LINE

Main winch and optional auxiliary winch 5/8” (16 mm) rotation resistant compacted strand 18 x 19 or 19 x 19. Min. breaking strength 22.5 tons (20.6 mt).

ENGINE SPECIFICATIONS

Make and Model, Cummins ISC 300 (300 hp)

- Type | 6 cylinder
- Bore and Stroke | 4.49 x 5.32” (114 x 135 mm)
- Displacement | 504.5 in³ (8.27 L)
- Max. Gross Horsepower | 300 hp (224 kw) @ 2000 rpm
- Max. Gross Torque | 860 lb/ft (1168 N•m)/1300 rpm
- Net Horsepower | 242 hp (180 kw) @ 2000 rpm
- Net Torque | Turbocharged
- Aspiration | 12 volt
- Electrical System | 100 amp
- Alternator | (2) 12V-950 C.C.A. @ 0˚F (-18˚C)
- Battery | 60 gal (227 L)

SPEED AND GRADEABILITY

- Engine Transmission | Cummins Manual
- Speed Range | 60 mph (96 km/h)
- Gradeability | 56%
- Cummins Automatic | 60 mph (96 km/h)
- Gradeability | 64%

Performance data is based on a gross vehicle weight of 58,000 lb (26 308 kg). Performance may vary due to engine performance, weight, tire size, etc. Gradeability data is theoretical and is limited by tire slip, vehicle stability, oil pan angle, and other factors.
